Authorized to work in the US for any employer

Work Experience

Full Stack Engineer

HACCP Assurance Services - Bloomsburg, PA

April 2020 to Present

At HACCP Assurance, myself and the team that I am apart of use current, scalable, future-proof technology stacks to both automate and improve current business processes as well as to create websites and other web-based software applications.

React, MongoDB, MySQL, Git, and NodeJS are chief among them, but there many other technologies we use routinely. Communication, planning, and collaboration are key to success in this role, as well as reliability and adaptability. As a mid-market company, we must all be versatile. As such, I am also experienced with Adobe Illustrator, Photoshop, and other software in Adobe's creative suite.

Freelance

Ungard Digital Development

December 2019 to April 2020

The brand that I freelance under. I designed and developed the Logo and Website. I offer SEO services as well as Web Development with HTML, CSS, and JavaScript.
